

## About Blue Hill

### Blue Hill Data Services - Cost-Effective, Secure, On-Shore Data Center Solutions

Blue Hill Data Services (BHDS) is a leading Information Technology Outsourcing (ITO) infrastructure services provider delivering full-service, on-shore Data Center Hosting solutions to customers worldwide. Blue Hill specializes in **mainframe, open systems, and AS/400 iSeries** managed hosting services; **Applications Services; Colocation** services; **Dedicated Disaster Recovery** and **Business Continuity** Solutions. Our scalable, reliable and secure services enable customers to focus on their core business while ensuring the most cost-effective and highest quality support 24x7 for their mission-critical business systems.

Blue Hill helps customers **reduce their operating costs** and **minimize risk** by providing **fully managed data center hosting solutions**, and a full array of complementary IT support services. Our highly skilled and experienced staff, **world-class on-shore facilities**, and reliable 24x7 services have supported customers worldwide and from all industries since 1994. Our deep technical skills and long standing experience enable us to support our customers' **legacy environments** as well as implement new technology solutions. Our differentiation is providing **customized solutions, flexibility with contracts and SLAs, and personalized attention and services.**

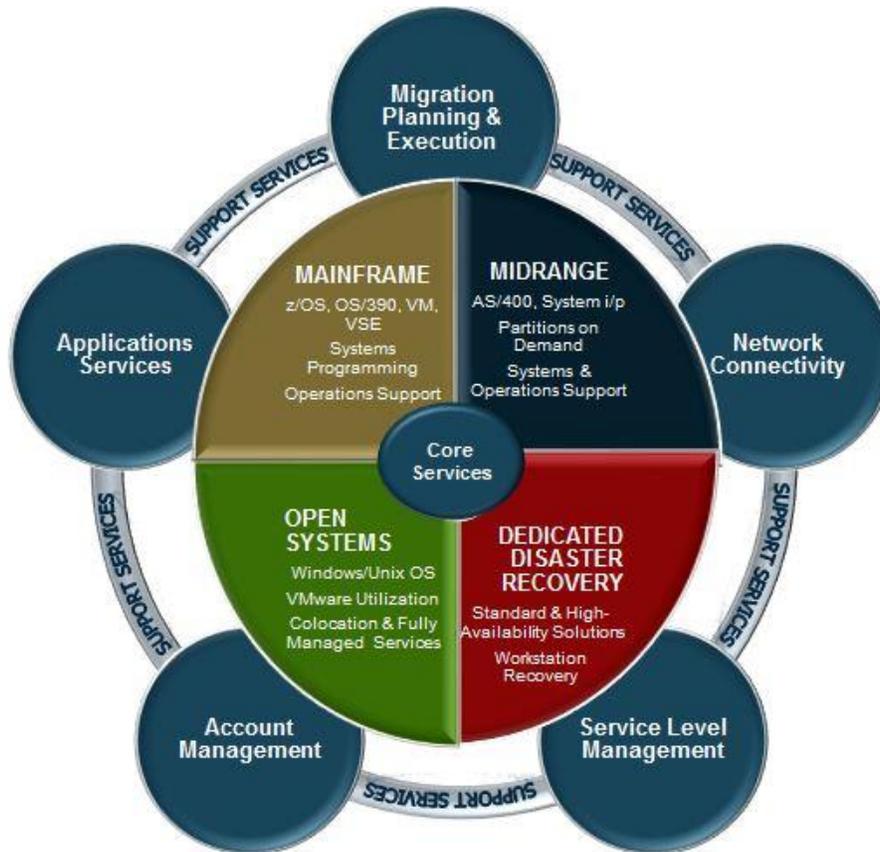

Realizing the benefits of maximizing best-in-class hardware and software, and understanding the markets' desire for strong customer service, Blue Hill was founded to fill this void. The focus at inception was to provide flexible, customized solutions along with unparalleled customer service, and we are proud to state that our focus has not changed.

We are proud our **customer retention is 100%**. Blue Hill is a customer-focused solutions-oriented company. Our dedication to our customers has made Blue Hill one of the most respected names in the industry. Every customer receives comprehensive and customized solutions and support designed to meet their particular needs, regardless of their size or requirements.

With our broad base of customers running on simple to highly complex operating systems, Blue Hill continues to provide the highest service levels. We offer customers the benefits of a multiple platform data center, expanded service offerings, responsive and flexible services, and unmatched customer relationship management.

Blue Hill serves all industries, including Financial Services, Insurance, Healthcare, Pharmaceutical, Government and Education, Manufacturing, Transportation and Logistics, Technology and Services organizations, and Media and Entertainment companies.

The Blue Hill team has extensive experience in managing a customer's data center requirements. This means that as decision makers and service providers, we have faced just about every challenge possible and know how to service our customers quickly and effectively. We support the operational processing requirements of customers 24x7 utilizing advanced management tools and expert support staff that make Blue Hill an exceptional partner.

Blue Hill's state-of-the-art 'Class A' data centers offer environmental redundancies and secure network infrastructure, as well as high-level data security provisions. In support of customer Sarbanes-Oxley, HIPAA, and Payment Card Industry (PCI) requirements, Blue Hill compliances include SSAE 16 Type 2 (formerly SAS 70 Type 2) compliance, PCI-DSS and EU Safe Harbor Security Certifications — evidence that our operational processes and controls meet superior standards of security, reliability and availability.
