We, at Blue Hill Data Services, feel nurses are and do much more and wish to take the time and opportunity to recognize and celebrate the skilled nursing professionals for their vital role in healing and patient care. They are the patients’ partner in the care and healing process and work in collaboration with physicians. While Maimonides is nationally recognized for its use of cutting-edge technology, it takes the right group of individuals to bring those state-of-the-art innovations to fruition. MMC’s nursing leadership believes in ongoing skill development and has a set a standard for all nurses that promote continuous learning and professional growth.

“We appreciate the opportunity to provide mission critical services to Maimonides Medical Center. Blue Hill is proud to stand with MMC and honored to be part of this event with a show of gratitude to not only the skilled nursing staff at Maimonides Medical Center, but all nurses worldwide.”
-John Lalli, Chief Operating Officer and Managing Director, Blue Hill Data Services.
