

FOR IMMEDIATE RELEASE

October 7, 2016

**BLUE HILL DATA SERVICES – SPONSORS –
THE 2016 MICHIGAN DIGITAL GOVERNMENT SUMMIT**

Michigan's successful comeback can largely be attributed to the influence of Information Technology and its ability to drive innovations in supporting the needs of the public sector. The 2016 Michigan Digital Government Summit is designed to do just that, and share innovation and thought leadership in making government work more efficiently.

The summit, celebrating their 14th year, is being held October 12-13 in Lansing, Michigan.

As a proud sponsor of this year's event, Blue Hill continues to invest in their commitment to support government agencies with cost efficient, technologically sound solutions.

"We have intimate knowledge and experience in supporting a growing number of government agencies. Their pain is real: shrinking budgets, maintaining legacy systems while critical support personnel are at retirement age, and the influx of new technologies. We are also very proud of the goodwill we have built in offering solutions that solve these problems. This is one of the major events this year for public sector professionals and we are proud to be asked to help," said Rosary De Filippis, Executive Director, Business Development and Chief Marketing Officer at Blue Hill.

Rosary De Filippis and Vince Ellerson will be available to meet up with their constituents and offer white papers and other thought leadership documents.
