

News Release

Blue Hill Presents at 2015 SHARE Conference in Orlando Aug 11 at 11:15am

Tom Laudati, Chief Technology Officer at Blue Hill Data Services, is a presenter at the 2015 SHARE Conference, August 9 – 14th at the Disney World Swan and Dolphin Resort in Orlando.

The session is entitled: ***“Find Out How Customers are Using Virtual Tape to Improve Recovery Time and Recovery Point Objectives,”*** and will be held on **Tuesday, August 11, 11:15am - 12:15pm** in the **Oceanic 8 Room at the Dolphin Hotel**. The discussion will be about virtual tape concepts and how the technology is used to support production backups and recovery at remote locations from Disaster Recovery. Mr. Laudati will be addressing the need for security of tape data when customer data goes off-site, and how the technology can help customers meet various regulatory, industry, and company requirements. Additionally, there will be discussions about Blue Hill Data Services customers' experience, and how Blue Hill Data Services supports numerous customer organizations with this technology.

Please join Tom Laudati and John Sawyer from Secure Agent for this presentation. This is a great way for IT technical professionals to learn first-hand about how other companies utilize this technology, and the best practices associated with utilization and implementation.

SHARE events are a one-stop shop for enterprise IT education where you will enjoy a longstanding tradition of furthering the community. Like all SHARE events, Orlando is crafted to help enterprise IT professionals expand industry knowledge, enhance skills and increase organizational efficiencies by focusing on the user group's three main pillars: Education, Network and Influence.

About SHARE

SHARE is an independent, volunteer-run user group association, in existence for 60+ years, providing enterprise technology professionals with continuous education and training, valuable professional networking and effective industry influence.

About SecureAgent® Software

SecureAgent® Software (a division of Global Interface Solutions, Inc.) is a technology company based in Tulsa, Oklahoma. Our growth has come from innovation, a high-level of customer service, and a reputation for quality products. Perhaps the most compelling proof of our leadership in the field is the type of customers that currently use our software.
