Blue Hill is Proud to Speak at the 2014 SHARE Conference in Anaheim, CA

Blue Hill Data Services' Chief Technology Officer, Tom Laudati, will be speaking at the 2014 SHARE Conference, being held on March 14th at the Anaheim Marriot Hotel in Anaheim, California. The subject of this speaking session is: "Customer Experience with SecureAgent's Secure Data Solution Virtual Tape on Multiple Platforms."

The discussion points are about controlling the cost of data backup, archiving, and recovery, because it is increasingly challenging as volumes of data continually increase, but IT budgets don't necessarily follow suit. Learn how Blue Hill Data Services, a managed services/hosting provider, uses an economical enterprise virtual tape solution to support a wide range of customer recovery needs (mainframe, opens systems and iSeries) in a single VTL.

SHARE Inc. is an independent, volunteer run association providing enterprise technology professionals with continuous education and training, valuable professional networking and effective industry influence.

About Blue Hill Data Services

Blue Hill Data Services helps customers **reduce their operating costs** and **minimize risk** by providing fully managed data center hosting solutions, and a full array of complementary IT support services. Our highly skilled and experienced staff, world-class **on-shore facilities**, and reliable 24x7 services have supported customers worldwide and from all industries since 1994.
